

Dear Parents/Guardians,

Many of you have already returned the consent forms for the H1N1 vaccine to be administered to your child at school. We have recently received notification of the dates which these will be given. All vaccines will be the in-activated virus which is the injection type. **No nasal mist will be administered.** The date for Northside is **Friday, October 23rd from 1:30 P.M. until 4:30 P.M.** in the cafeteria. We have set up the vaccination both during and after school so those parents that would prefer to be present may be. For those of you that have already returned a consent form please fill out and return the bottom portion of this letter. For those who did not turn in a consent form, please call the school that your child attends and express your interest in this free vaccination. If this date and time will not work for you, the Whiteside County Health Department located in Rock Falls will be offering a free vaccination clinic tomorrow October 17th from 8:00 A.M. until 2:00 P.M. for all children 6 months to 24 years of age, women who are currently pregnant and caretakers/parents for children six months and under.

Reminder: All students 9 years of age and under will need to have a booster shot approximately 3 weeks later that will also be administered at the school.

Thank you,

Northside School

_____ Please give my child the vaccination during regular school hours

_____ Please give my child the vaccination after school hours when a parent or guardian will be present
